

HARTUNG

GLASS INDUSTRIES

Facades+ AM

Prepare to be inspired. Visit Hartung's display at [Facades+ AM](#); the premier conference on high-performance building enclosures, December 4th at the [Motif Seattle Hotel](#). The program includes three sessions with three speakers each who will discuss issues unique to the Pacific Northwest, including innovative building skins, high performance façades, and the future face of Seattle. Co-chaired by Carsten Stinn, [Perkins+Will](#) & Mic Patterson, [Enclos](#).

Happy Thanksgiving

Happy Thanksgiving to our valued partners from all of us at Hartung Glass Industries.

Our warmest thoughts and best wishes to you for a fun and safe Thanksgiving.

May the good things of life be yours in abundance. We value your continued partnership and are grateful for your business.

Rethink Glass: HD Glass Digital Ceramic Frit

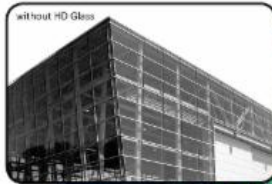

Digital Printing on Glass

- Creativity** any pattern or design, with unlimited colors and high resolution images
- Reliability** HD Glass artwork files stored electronically for a perfect match if required in the future
- Simplicity** Installations made easy with custom printed mark numbers on each unit
- Durability** Inks fused into the glass, providing superior resistance to scratching, UV and weather
- Accuracy** Precise micro-drop printing allows accurate photorealistic and graphic designs
- Innovation** the possibility to create double-vision designs

HD Glass unlocks the artistic and performance potential of glass that was once thought impossible. Our advanced technology 720dpi high definition digital printing allows designers to create with artistic expression while controlling the architectural needs of the project. Highly versatile and extremely durable HD Glass is the superior choice for your decorative and performance enhanced glass needs.

720 DPI High Definition

Artistic Freedom & Functionality Control

- Creativity:** any pattern or design, with unlimited colors and high resolution images
Reliability: HD Glass artwork files stored electronically for a perfect match if required in the future
Simplicity: installations made easy with custom printed mark numbers on each unit

Central Oregon Community College Science Center

Project: [Central Oregon Community College \(COCC\) Science Center](#)

Location: Bend, OR

Glazier: [Alpine Glass](#)

Building Type: Educational

Architect: [Yost Grube Hall Architecture](#)

Photos: James Fallows

Insulating Glass Units: [Guardian SunGuard SuperNeutral 54 \(#2\)](#)

The Science Center is where you'll find some of COCC's most popular classes - anatomy and physiology, microbiology, physics, chemistry, geology and more. The COCC Science Center was designed for collaborative learning with innovative lab classrooms, group study areas, plenty of hallway chalkboards to foster learning and stunning views from the second floor.
