## Clamp Override -

SHOWER CLAMP	AGAC - AGALITE CLAMPS
AGAC CLAMP TYPE	SQUARE - SQUARE CLAMPS
CLAMP CHANNEL OPT	CBCHS - CLAMP BOT CHANNEL SIDE
CLAMP EDGE OVERRIDE	CMPOR - CLAMP QTY OVERRIDE

CLAMP OVERRIDE
- ☑ 0CLAMP - 0 CLAMP EDGE LENGTH MAX — 5
- ☑ 1CLAMP - 1 CLAMP EDGE LENGTH MAX — 10
- ☑ 2CLAMP - 2 CLAMP EDGE LENGTH MAX — 75
- ☑ 3CLAMP - 3 CLAMP EDGE LENGTH MAX — 100

This setting allows users to adjust the number of clamps on each edge based on the width/height of the panel. For example, if a user puts "20" into the 0Clamp field, then no clamps will be placed on any sides shorter than 20 inches. If you put "36" into the 1Clamp field, one clamp will be placed on all sides that are longer than 20 inches but shorter than 36, and so on. (Note that all fields must be greater than the one before it. For example, if you but "15" in the 0Clamp field, but 1Clamp field says "10" then the clamps will not disappear. "10" would have to be changed to a higher number before the clamps would disappear.)
