

Model NBSE90
Matte Black
Clear Glass

NAPA BYPASS SLIDER with a 90° RETURN PANEL

- 3/8-in glass double bypassing barn door slider with a 1/2-in thick return panel; available in both shower (NBSE90) and tub heights (NBTE90).
- 55-mm stainless rollers glide frameless doors on a powerful rectangular header.
- Innovative header block system captures the sliding panels eliminating panel bounce-back and the need for exposed bumper stops.
- Custom sizes and options available to accommodate any of your shower door needs!

STANDOUT FEATURES

Double Bypassing

Both doors glide effortlessly from side to side for an easy entrance and exit to your shower enclosure

Easy Installation

Our engineers carefully designed the door to simplify its components, making installation a breeze

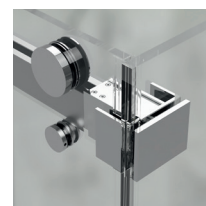

Heavy Duty

You can depend on this door to last with its durable stainless steel hardware and a thick 1/2-in return panel

Notes:

- » Buttress panel configurations may be possible on a case-by-case basis (tech review required)
- » Slider size ranges are the same as the stand-alone NBSE/NBTE
